

optimization of biological sulphate reduction to treat ... - optimization of biological sulphate reduction to treat inorganic wastewaters: process control and potential use of methane as electron donor joana sofia cassidy
optimization of the electron donor supply to sulphate ... - 2.5 modelling biological sulphate reduction 32 2.5.1 monod type modelling for biological sulphate reduction 32 2.5.2 artificial neural network (ann) based modeling 33 **optimization of the electron donor supply to sulphate ...** - 3.3.2 biological sulphate reduction under steady state feeding conditions 93 3.3.3 biological sulphate reduction under non steady feeding conditions 99 3.3.4 ann modelling 99 **optimization of biological with ozone ... - ijntes** - maximum reduction ability, it was selected for further study like medium optimization for starch degradation using biological method. the the best degradation of starch was observed at ph 7, bacterial inoculums concentration (1.0%), 0.1% peptone, 0.6% sucrose, 0.6% lactose, **optimization study for pb(ii) and cod sequestration by ...** - original article optimization study for pb(ii) and cod sequestration by consortium of sulphate-reducing bacteria anamika verma1 Ã¢â€šÂ¿ narsi r. bishnoi1 Ã¢â€šÂ¿ asha gupta1 **anucha chukwuka bethel the development and optimization of ...** - efficient sulphate reduction, low sludge production and stability of metal sulphide precipitates in comparison to their hydroxide counter parts over wide range of ph continue to make the biological treatment method competitive. **application of biological for sulphate industry - eucalyptus** - application of anaerobic biological treatment for sulphate removal in viscose industry wastewater v parravicini k svardal h kroiss institute for water quality ... **sulphate reduction utilizing hy rolysis of complex carbon ...** - total cod reduction in a pilot-scale sulphate reducing st~ fed sewage sludge as a carbon source with solid recycle i sulphate removal in a pilot-scale reducing pilot-scale str fe~ sewage sludge with solid **optimization of biological synthesis of silver ...** - optimization of biological synthesis of silver nanoparticles by some yeast fungi m.k. zahran, a ... detailed information on the progress of reduction of silver nitrate (formation of silver nanoparticles) on the nanosecond timescale. our measurements indicate that extracellular biosynthesis of silver nanoparticles agnps by different yeast strains produce agnps with the diameters in the range of ... **development of the floating sulphur biofilm reactor for ...** - sulphides formed during the biological reduction of sulphate from wastewater (4; 5). a sulphide a sulphide oxidising bioreactor (sobr) was developed for the operation of the process. **optimization of biological treatment of dairy effluent ...** - optimization of biological treatment of dairy effluent using response surface methodology asha rani garg * and ankit magotra department of biotechnology, punjabi university, india
